

— More inner stance

More inner stance equals:

More opportunity

More capacity

More competence

More growth

More bite

More speed

More endurance

More honesty

More action

More focus

More strength

More attraction

More influence

More presence

More swagger

More results

More winning

Less pretending

Less drama

Less lies

Less justifications

Less strife

Less frustration

Less stagnation

Less stress

Less fragility

Less comfort choices

Less confusion

Less manipulation

Less chasing

Less shallowness

Less convincing

Less bullshit

Less losing

In life, you get what you build.

Build and live from a stronger inner stance.
